

13th International Conference on
Parallel Problem Solving from Nature

September 13-17, 2014
Ljubljana, Slovenia

<http://ppsn2014.ijs.si>

CALL FOR PAPERS

General Chair

Bogdan Filipič

Jožef Stefan Institute, Slovenia

Honorary Chair

Hans-Paul Schwefel

Dortmund University of Technology, Germany

Program Chairs

Thomas Bartz-Beielstein

Cologne University of Applied Sciences, Germany

Jürgen Branke

University of Warwick, UK

Jim Smith

University of the West of England, UK

Tutorial Chairs

Shih-Hsi "Alex" Liu

California State University, Fresno, USA

Marjan Mernik

University of Maribor, Slovenia

Workshop Chairs

Evert Haasdijk

VU University Amsterdam, The Netherlands

Tea Tušar

Jožef Stefan Institute, Slovenia

Publications Chair

Jurij Šilc

Jožef Stefan Institute, Slovenia

Local Organizing Committee Chair

Gregor Papa

Jožef Stefan Institute, Slovenia

Important Dates

Workshop proposal submission November 18, 2013

Tutorial proposal submission November 18, 2013

Workshop acceptance notification December 18, 2013

Tutorial acceptance notification December 18, 2013

Paper submission March 31, 2014

Author notification May 19, 2014

Camera-ready paper submission June 2, 2014

Early registration June 4, 2014

Conference September 13-17, 2014

AIMS AND SCOPE

The 13th International Conference on Parallel Problem Solving from Nature (PPSN XIII) will be organized by the Jožef Stefan Institute, Ljubljana, Slovenia, and held at the Ljubljana Exhibition and Convention Centre on September 13-17, 2014. The conference aims to bring together researchers and practitioners in the field of Natural Computing.

Natural Computing is the study of computational systems that use ideas and get inspiration from natural systems, including biological, ecological, physical, chemical, and social systems. It is a fast-growing interdisciplinary field in which a range of techniques and methods are studied for dealing with large, complex, and dynamic problems with various sources of potential uncertainties.

PPSN 2014 will be a showcase of a wide range of topics in Natural Computing, including, but not restricted to, Evolutionary Computation, Neural Computation, Molecular Computation, Quantum Computation, Artificial Life, DNA Computing, Swarm Intelligence, Artificial Ant Systems, Artificial Immune Systems, Self-Organizing Systems, Evolutionary Robotics, Emergent Behavior, and Applications to Real-World Problems. The conference will also feature workshops and tutorials covering advanced topics in the field of Natural Computing.

PAPER PRESENTATION

Following the well-established tradition of PPSN conferences, all accepted papers will be presented during poster sessions. Each session will contain several papers, and will begin by a plenary quick overview of all papers in that session by a major researcher in the field. Past experiences have shown that such presentation format led to more interactions between participants and to deeper understanding of the papers.

All accepted papers will be published in the proceedings as a volume of the Lecture Notes in Computer Science (LNCS) Springer series. The format should follow the LNCS style (<http://www.springer.de/comp/lncs/authors.html>).

Prospective authors are invited to contribute their high-quality original results in the field of Natural Computing as papers of no more than 10 pages.

SPONSORSHIPS

The Organizing Committee is pleased to offer PPSN 2014 conference sponsorship opportunities. By sponsoring PPSN 2014, your organization will connect with the natural computing community and promote your activities in the field. Past sponsors of the PPSN series have included: Intel, Microsoft, HP and many others.
